

Freedom Ministry Recommended Training Resources

This sheet contains excellent reading and video recommendations for those iterated in deliverance and healing ministry.

Note on Resource List from Lisa Piper:

The wonderful and late Rick Clendenen, once stated that reading 50 books on any subject is the equivalent of getting a bachelor's degree. I wanted to learn all I could about helping people to be set free. I have read books, attended seminars, watched videos and prayed with a lot of people. I kept a record of all of the resources and graded them 1-5.

Listed on this sheet are the resources graded with a 5! I highly recommend the contents for anyone wanting to equip themselves for ministry. Not all of the books are on deliverance, some are listed to help maintain balance and equip the minister for warfare.

I collect articles on a variety of subjects from false religions to renunciations. If you have a need for a certain topic, please let me know. In addition, there are a lot of other books, so if you have a particular topic in mind, I can likely refer you to a good book.

In case you do not know where to start, I have placed an * beside the titles that I think are of a #1 priority when starting out.

There are more resources, courses, Q&A interviews with experienced ministers and more on the website www.miracleofdeliverance.com The videos listed below from YouTube are embedded into the website for your convenience.
